## Commercial & Industrial Services

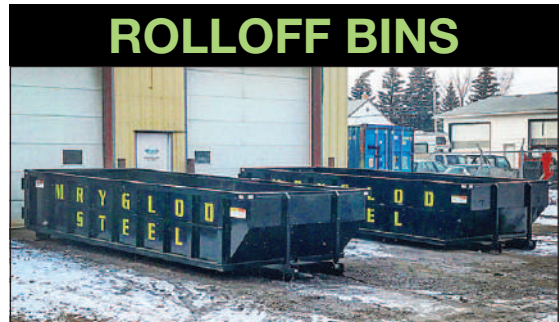

No job or customer is too big or small for Mryglod Steel to provide top notch service and exceptional prices. We can provide the right equipment, team, and procedure to ensure that the job gets done safely and efficiently. With our expanding fleet of late model trucks and equipment, you can be sure that the job or task will be completed in the most cost effective way possible for the customer.

### Custom bin sizes can be manufactured for certain applications

#### LUGGER BINS

- 16 cubic yard — 17' long x 6' wide x 6' tall
- 10 cubic yard — 12' long x 6' wide x 5' tall
- 4 cubic yard — 7' long x 6' wide x 3' tall

#### ROLLOFF BINS

- 30 cubic yard — 22' long x 8' wide x 6' tall
- 20 cubic yard — 20' long x 8' wide x 4.5' tall
- 15 cubic yard — 24' long x 8' wide x 2.5' tall

- Has trust ever been a concern with your current scrap metal service provider?
- Are you getting paid for every pound of material that you put in the bin?
- What kind of “ton” are you being paid for? NT, GT, or MT?

If you have ever wondered about the answers to any of these questions, it may be time for a change.

Mryglod Steel & Metals can also provide flat deck, lowbed and end dump trailer hauling services, as well as jobsite or yard cleanups. Whatever it takes to get the **job done right!**

Mryglod Steel & Metals is now servicing Regina and surrounding areas with a state of the art Lugger Truck, equipped with on board “Legal for Trade” scales.

Full lugger bins can be picked up at your yard or jobsite, weighed and a scale ticket printed to show the exact weight of the contents of the bin before it leaves your yard.

This primary scale ticket will be double checked with our government certified truck scales to ensure accuracy every time.
